

Make Your Own Magnifying Glass

Do you have the proper V.E.S.T.* needed to join the InvestiGators on their next case?
Follow the instructions below to make your own magnifying glass!

* Very Exciting Spy Technology

WHAT YOU NEED

- ✓ A clear plastic bottle
- ✓ A dry-erase marker
- ✓ A pair of scissors
- ✓ Water

WHAT TO DO

1. Using the marker, draw a circle shape at the neck of the bottle. It needs to be here so you create a disk shape when you cut it out.
2. Cut out the circle.
3. Pour a little water into the disk.
4. Hold it over your book or paper to make the letters bigger. Just be careful not to spill the water onto the book!
